Service Proposal for AI Chatbot Solutions

Prepared by: *Abedin Tech*

Service Provider: *MD Arifuzzaman Swapnil*

◆ Introduction

In today's digital world, customers expect **instant replies**, **24/7 support**, and **smart interactions**. Abedin Tech provides advanced **AI-powered chatbot solutions** for businesses across all platforms.

Our goal is to automate customer communication, increase engagement, boost sales, and save your company time and manpower.

We build intelligent chatbots that work seamlessly on **Messenger, Instagram, WhatsApp, Telegram, Threads, Gmail**, and **any website**.

◆ Our Core Services

1. 24/7 AI Chatbot Development

We develop highly advanced conversational chatbots capable of handling customer queries around the clock.

Features include:

- Instant smart replies
- Human-like conversation
- Auto-learning capabilities
- Handling FAQs automatically
- Reducing customer service cost

2. Multi-Platform Integration

One AI chatbot that works everywhere:

- Facebook Messenger
- Instagram DM
- WhatsApp Business
- Telegram
- Threads
- Gmail Auto-Reply AI
- Website live chat popup
- Custom platforms (API-based)

Your business can respond instantly on all channels from one unified system.

3. E-commerce & Business Automation

We automate your business processes:

- Product information replies
- Order taking & checkout assistance
- Lead collection
- Booking system automation
- Customer profile tracking
- Payment instruction automation

4. Personalized AI Agent for Brands

We build custom-branded chatbots using:

- Your tone of voice
- Your product knowledge
- Your service guidelines
- Your branding & personality

This allows you to have your own **“Smart Virtual Employee”** working 24/7.

5. Auto Marketing & Broadcast System

We enable your business to send:

- Promotional messages
- Offer updates
- New arrival notifications
- Auto reminders
- Customer re-targeting messages

And all done automatically through AI.

6. Customer Support Automation

We create chatbots that:

- Categorize questions
- Detect customer issues
- Provide instant solutions
- Forward complex issues to human agents
- Improve customer satisfaction

7. Email Automation (AI Gmail Agent)

We develop a Gmail-based AI assistant that:

- Reads incoming emails
- Writes professional responses
- Follows templates & company policy
- Sorts emails in categories
- Handles customer service emails automatically

8. Website AI Assistant

We install a smart AI widget on your website:

- Greets visitors
- Collects leads
- Answers FAQs
- Recommends products/services
- Converts visitors into customers

◆ Why Choose Abedin Tech?

- ✓ 24/7 customer support
- ✓ Fast delivery
- ✓ Modern AI technology
- ✓ High accuracy chatbots
- ✓ Multi-platform integration
- ✓ Affordable packages
- ✓ Custom branding
- ✓ Professional quality development

◆ Who Needs This Service?

Our AI chatbot solutions are perfect for:

- Online shops
- Restaurants
- Real estate companies
- Service businesses
- Local businesses
- Freelancers
- Agencies
- E-commerce stores
- Hospitals & clinics
- Educational institutes

Anyone who needs **instant customer reply** will benefit.

◆ Final Commitment

At Abedin Tech, we believe in smart automation.

Our AI chatbots will help your business grow faster, work smoother, and reduce operational costs—while providing an excellent customer experience.

We are ready to build your **24/7 AI chatbot system** today.
